Work Experience

Next Js React Developer

Airport pickups london-LONDON

April 2022 to January 2024

• During these years of experience in frontend development, I took on a variety of responsibilities and achieved significant milestones. Over this period, I successfully developed a range of high-performing websites and excelled in the following areas:

• Multilingual Website Development: Played a crucial role in creating multilingual websites powered by Next.js. Each project prioritized seamless language switching and localization to enhance user experience across diverse audiences.

• State Management Expertise: Expertly integrated Redux for efficient state management, ensuring a smooth and dynamic user experience throughout all applications.

• Performance Optimization: Focused on speed and performance optimization, leveraging techniques such as CI/CD pipelines, code splitting, and lazy loading to achieve fast load times and improved scalability.

• Innovative Systems: Contributed to the development of innovative systems, including reservation platforms with dynamic updates, efficient booking processes, and real-time data handling.

• UI/UX Design Contributions: Collaborated with designers using Figma to create engaging page layouts and personally contributed to the design of specific pages, ensuring alignment with project goals and user needs.

React Developer

Deirvlon Technologies-Baku

June 2021 to December 2021

I have taken on ne- responsibilities in the field of front-end development. During this time, I successfully developed a series of websites and achieved the following in these projects:

• Improving user experience by creating user:friendly web interfaces.

• Working to increase the speed and performance of the websites.

• Utilizing Redux and TypeScript to build an eCommerce prowect

• Closely follo-ing -eb development technologies and trends.
